DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/25/07 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. William Haulbrook on 12/7/07.

3. The application has been amended as follows:

- In claim 1, at line 11, before the word "following", insert the word -- only --.
- In claim 1, at line 11, between the words "following" and "step", insert the words -- completion of --.
- In claim 52, at line 15, before the word "after", insert the word -- only --.

- In claim 52, at line 15, between the words "after" and "(ii)", replace the word "step" by inserting the words -- completion of --.

4. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to show, either individually or in combination, the step that blends at least one pixel of the second texture into the protected image only following completion of the step that following a first user signal, directs graphical input representing a plurality of brush strokes performed by the user into a second texture, wherein the protected image is at least initially unedited by the graphical input and wherein the plurality of brush strokes comprises at least on overlapping portion, and following a second user signal subsequent to the first user signal.

Claims 4-29 and 32-34 are dependent on claim 1, and therefore the examiner gives the same reasons as stated above.

Regarding claims 46-51, the examiner gives the same reasons for allowance as stated in the previous office action.

Regarding claim 52, the prior art of record fails to show, either individually or in combination, a processor configured to run software that blends at least one pixel of the second texture into the protected image only after completion of directing graphical input representing a plurality of brush strokes performed by the user into a second texture following a first user signal, wherein the protected image is at least initially unedited by the graphical input and wherein the plurality of brush strokes comprises at

least on overlapping portion, and following a second user signal subsequent to the first user signal.

Claims 53-57 are dependent on claim 52, and therefore the examiner gives the same reasons as stated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
